

## COVID19 - SITE SPECIFIC SAFETY PLAN

**JOB:** \_\_\_\_\_

**DATE:** \_\_\_\_\_

## OUR RESPONSE TO COVID19

In these unprecedented times, the Senior Management of Danosh Construction is taking every measure possible to protect all workers currently actively employed, all sites being attended, all materials handled or delivered, AND any clients or personnel Danosh workers may come into contact with.

**Any employee who has or may travel outside of Canada is REQUIRED to self-isolate for 14 days prior to returning to work.**

The following standard working procedures will apply to all jobsites attended during the active Covid19 pandemic (unless otherwise addressed in a site specific safe working procedure) until further notice:

- Social Distancing of a **MINIMUM** 6ft (2meters) by all employees and to any individual you may come into contact with
- Hand and Face (N95 masks) protective equipment to be worn at ALL TIMES while on public sites
- Each jobsite is limited to a maximum of 5 Danosh employees at all times
- Jobsite materials are to be handled by designated personnel only, and NOT passed between workers as much as possible
- Proper hand washing techniques (as per CDC – outline provided to all employees in training) to be followed after every removal of hand protective equipment
- All documentation, delivery slips, approvals, etc... will henceforth be ELECTRONICALLY delivered. If customer acceptance is required onsite, Danosh Construction employees will request and record a verbal agreement, and an electronic confirmation will follow.

Danosh Construction will continue to do everything in its power to maintain clean job sites, equipment, and material it uses/delivers to jobsites. However Danosh Construction is NOT responsible for any equipment, materials, or surfaces that are provided or utilized by non-Danosh employees.

Danosh Construction acknowledges that while it will do everything in its power to protect the safety of its employees, the physical mental well-being of all workers and clients far outweighs the importance of its contractual work. If any Danosh Construction worker is asked to vacate site by a client or other site personnel, workers are required to follow the request until further instruction from a site GC or similar is given. Excuse from work will be granted without question to any employee who feels their safety is a risk due to Covid19.
